

**State Environmental Quality Review
NOTICE OF COMPLETION
For Final Environmental Impact Statement**

Date of Transmittal: December 1, 2023

This Notice is issued pursuant to Part 617 of the implementing regulations pertaining to Article 8 (State Environmental Quality Review Act) of the Environmental Conservation Law.

On November 29, 2023, the Village of Suffern Planning Board, as Lead Agency, determined that the Final Environmental Impact Statement ("FEIS") has been completed and accepted for the proposed action described below.

The FEIS is available for review on the Village of Suffern website at: <https://suffernny.gov/government/planning-board/projects/>.

Comments on the FEIS are requested and will be accepted by the contact person until the end of business day, December 13, 2023, unless the comment period otherwise extended by the Lead Agency.

Name of Action: Industrial Park for Warehousing and Logistics Center

Applicant: IV2 Rockland Logistics Center, LLC

Lead Agency: Village of Suffern Planning Board

SEQR Status: Type I Action - the proposed action exceeds three different thresholds, which requires that it be classified as a Type I action under the New York State Environmental Quality Review Act (SEQRA):

- a project that involves a physical alteration of 10 acres;
- parking for 500 vehicles in a city, town or village having a population of 150,000 persons or less;
- in a village having a population of 150,000 persons or less, a facility with more than 100,000 square feet of gross floor area.

Description of Action:

The proposed redevelopment project includes demolition of the existing 533,000 square foot Novartis pharmaceutical complex and construction of three (3) Class "A" industrial warehouse/wholesale distribution facilities. The facilities to be located at 25 Old Mill Road will include 1,221,800 square feet (SF) of new warehouse construction with associated loading bays, trailer storage spaces and other site improvements including but not limited to lighting, landscaping, utilities and stormwater management facilities. The project site is located within the PLI – Planned Light Industrial Zoning District, wherein warehousing uses are permitted as of right under the Village of Suffern Zoning Code.

The new industrial park will include three (3) warehouse, with Building 1 consisting of 963,100 SF, Building 2 consisting of 170,500 SF and Building 3 consisting of 88,200 SF (“The Project”). Access into and out of the site are provided by two driveways to Hemion Road – a southerly access drive (proposed for cars only), and the northerly Old Mill Road access drive which would be used by cars and trucks. The two access points traverse the portion of the property located in the Village of Montebello.

Location: 25 Old Mill Road - the Property, formerly the site of Novartis Office and Manufacturing Facility, is located along Hemion Road (CR 93) north of Lafayette Avenue (NY Route 59) in the Village of Suffern, Rockland County, New York. The site is designated as Section 55.22 - Block 1 - Lot 1 on the Village of Suffern Tax Maps and Section 55.06 -Block 1 – Lot 1 on the Village of Montebello Tax Map.

Potential Environmental Impacts:

Potential environmental impacts associated with the Proposed Action have been identified by the Planning Board based upon a review of the Full Environmental Assessment Form Parts 1 and 2. These impacts, which may be reasonably expected to result from the Project, have been compared to the criteria for determining significance identified in 6 NYCRR § 617.7(c)(1) and in accordance with 6 NYCRR § 617.7(c)(2) and (3). The Planning Board found that the proposed project may have a potential significant adverse impact on the following resources – the list below is not intended to be all inclusive:

- Extensive land disturbance
- Ecological habitat and wetland disturbances
- Traffic generation and impacts to levels of service
- Community services and facilities, including emergency services
- Fiscal impact to municipal and community service providers
- Water supply demand
- Stormwater runoff and impacts to surface waters
- Sewer design and demand
- Ambient noise level changes and increase in ambient light levels
